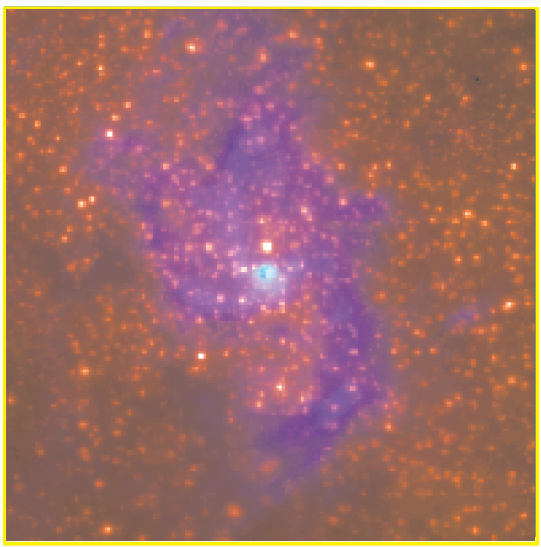
The Central Parsecs

Galactic Center Workshop 1998
Tucson, 7-11 September

email : gc98@mpifr-bonn.mpg.de
http : // www.mpifr-bonn.mpg.de/gc98

An international workshop on Galactic Center Research, jointly organized by the Galactic Center Newsletter, the Sonderforschungsbereich 328 (Heidelberg), the Physics Department and Steward Observatory of the University of Arizona, and the Max-Planck-Institut für Radioastronomie (Bonn).



The Central Parsec of the Galaxy
Radio : Yusef-Zadeh & Morris, NIR : Philipp, Zylka, & Mezger

- What is Sgr A* ?
- The dark mass in the GC
- The luminosity of the GC
- What is Sgr A* West ?
- Star formation in the GC
- Magnetic fields in the GC
- How special is the GC ?
- What still needs to be asked ?

Scientific Organizing Comittee:

Angela Cotera (Co-chair)
Heino Falcke (Co-chair)
Wolfgang J. Duschl (Co-chair)
Fulvio Melia (Co-chair)

Reinhard Genzel
W. Miller Goss
Peter Mezger
Mark Morris
Marcia Rieke
Kris Sellgren
Yoshiaki Sofue
Farhad Yusef-Zadeh

Local Organizing Committee:
Angela Cotera (Chair), Fulvio Melia, Susan Stolovy, Sera Markoff, Robert Coker, Peter Johnson
