

# *Astronomy: The Visible and Invisible Universe*

*A light wave is a light wave, no matter how long...*

SOHO/NASA

**A combination of two images from SOHO, showing Monday's solar flare at approximately 6 PM EDT.**

The National Radio Astronomy Observatory is a facility of the National Science Foundation operated under a cooperative agreement by Associated Universities, Inc.

## *Home sweet home...*

## *Some Solar System Neighbors*

*Comet Hyakutake*

*Doggie Treat  
Asteroid*

*What happens when your neighbors get too close...*

*Chicxulub, Mexico  
65 million years old  
(probably killed the dinosaurs)*

*Meteor Crater, Arizona  
Only 50,000 years old*

## *Venus -- UV to Radio*

## *Mars -- New Views*

## *What's that little speck of dust?*

## *What do you see in the sky at Green Bank?*

## *A Galaxy of Stars...*

## *Same Space -- Different Light*

*Radio*

*Infrared*

*Optical*

*X-ray*

*John Hibbard, et al.*
