# EVLA M&C Components

- The Observation Executor
- Obs2script
- Antenna Monitor & Control (AMCS)
  - Monitor & Control of EVLA Antennas
  - Monitor & Control of VLA Antennas
- Correlator Monitor & Control (CMCS)
  - Monitor & Control of the VLA Correlator
  - Monitor & Control of the WIDAR Prototype Correlator
  - Monitor & Control of the WIDAR Correlator
- Telcal - VLA Telcal and EVLA Telcal
- Flagging
- DCAF - VLA DCAF and EVLA DCAF, including the interfaces to the VLA Archive & the EVLA Archive
- User Interfaces, including
  - The Array Operator Screen
  - EVLA Antenna Screens
  - VLA Antenna Screens
  - VLA Correlator Screens
  - WIDAR Correlator Screens
  - Correlator Data Quality Displays
  - Telcal Data Quality Displays
  - The Device Browser
- Parameters Database (System Parameters)
- Monitor Data Archive
- The Alerts Subsystem
- Operations Software
