Frank Folmsbee, International Sales Manager

Special Terms and Conditions by Quotation

Customer: National Research Council Canada
Aries Part Number: 8801-122-23

PO#: _____
Quotation #: Q080327FAF1

Unless otherwise specified, all quotes are valid for 30 days. The following are the special terms and conditions that apply to our quotation. Please review this form carefully. This form must be signed and submitted with the Purchase Order for the part(s) listed within this quotation. Please contact the Regional Sales Manager who issued this quotation with any questions or concerns.

- X** **NON-CANCELLABLE, NON-RETURNABLE ITEM** The item is produced on a made-to-order basis. The entire Purchase Order must be scheduled for shipment within one year and may not be cancelled. Return privileges are limited to shipment errors or manufacturing defects reported to Aries within thirty (30) days of the invoice.
- X** **OWNERSHIP OF ARTWORK**: Aries retains ownership of all artwork, design drawings, Gerber files, etc. associated with this order. Any NRE charges billed for these types of activities are partial charges that support the manufacture of this product.
- X** **DEVICE WAIVER/SAMPLE DEVICES**: Upon order placement, THREE (3) samples of the device package(s) must be supplied to Aries before the order is accepted (SEE BELOW FOR SHIPPING INFORMATION). Aries will then provide a drawing for YOUR approval. If you cannot provide sample devices, and wish for Aries to proceed based SOLELY on the drawing that you have provided, we will continue the engineering process with the understanding that your company will be responsible for any rework costs which may result if the actual device differs from the dimensions supplied WHICH CAUSE THE DEVICE NOT TO FIT PROPERLY IN THE SOCKET. Please sign here if you wish us to proceed without sample devices.

If you do not sign, we assume that you are sending device samples. We will therefore wait for these samples to arrive prior to beginning work on the socket design (this may adversely affect your delivery date):
