

Chemical Name: Air Tool Lubricant

Manufacturer: NAPA

Container Size: 16 oz.

Location: VLA

**Disposal:** Place empty container in trash. Give partial or full container to safety officer.

#### Air Tool Lubricant MSDS

|               | A145-32, A145-128                                       |

### Section 1 : Chemical Product And Company Information

| Product Name :               | Air Tool Lubricant   |
|------------------------------|--|
| Manufacturer Name :          | Coilhose Pneumatics/Acme Automotive<br>19 Kimberly Road<br>East Brunswick, NJ 08816 USA                          |
| General Information :        | (732) 390-8480, Monday – Friday 8:00 AM to 5:30 PM EST<br>(503) 434-5964, Monday – Friday 8:00 AM to 5:30 PM PST |
| Emergency Information :      | (800) 222-1222 (Poison Control USA) 24 Hours<br>(800) 424-9300 (CHEMTREC) 24 Hours                               |
| Transportation Information : | Not regulated by Department of Transportation (DOT)  |

## Section 2 : Hazard Identification

| Hazardous Materials Identificatio<br>Health<br>1 | n System (HMIS) :<br>Flammability<br>1   | <b>Reactivity</b><br>0   |
|--|--|--|
| Chemical Name :                                  | Not Applicable - Mixture   |  |
| Chemical Family :                                | Petroleum Hydrocarbon  |  |
| Product Appearance and Odor :                    | Amber Liquid, petroleum odor   |  |
| Route of Exposure :                              | Inhalation and skin contact  |  |
| Potential Health Effects :                       | Prolonged or repeated skin contact with this<br>skin oils possibly leading to irritation and der<br>contacting the eye may cause irritation. Proc<br>oral and dermal toxicity. Possible aspiration<br>vomiting may cause aspiration of product int | matitis. Product<br>luct has a low order of<br>hazard. Induced |
| Carcinogenicity :                                | None   |  |
| OSHA Designation :                               | None   |  |
| NTP Designation :                                | None   |  |
| IARC Designation :                               | None   |  |
| Signs/Symptoms :                                 | Skin and eye irritation, defatting of skin, nau  | sea and vomiting.  |

| Lower Flammable or Explosive Limits : Not established |  |   |  |
| Coilhose Pne  | umatics/Acme Automotive Air Tool                                 | Lubricant MSDS  |  |

| Preparation Date:<br>21-OCT-05                     | Revision Date:<br>04-APR-08  |
|--|--|
| Extinguishing Media :                              | Foam, water spray (fog), dry chemical, carbon dioxide and<br>vaporizing liquid type extinguishing agents may all be suitable for<br>extinguishing fires involving this type product, depending on size or<br>potential size of fire and circumstances related to the situation.<br>Water froth may be used to flush spills away from exposure. |
| Fire Fighting Procedures :                         | Minimize breathing gases, vapor, fumes, and smoke, or decomposing products. Do not enter any enclosed or confined area without proper protective equipment and breathing apparatus.  |
| Section 6 : Accidental Rele                        | ase Measures   |
| Leak Response :                                    | Keep product out of sewers and watercourses by diking or<br>impounding. Absorb with sand or inert material. Sweep or scoop up<br>and remove. Prevent spread of spill. Advise authorities if product<br>has entered or may enter sewers, watercourses or extensive land<br>areas. Assure conformity with local regulations.                     |
| Disposal Methods :                                 | Assure conformity with applicable disposal regulations. Dispose of absorbed material at an approved waste site or facility. (Consult federal, state, or local authorities for proper disposal procedures.)   |
| Section 7 : Handling and St                        | torage   |
| Handling :   | Keep containers closed when not in use. Do not handle near heat, sparks, flame, or strong oxidants.  |
| Section 8 : Exposure Controls, Personal Protection |  |
| Ventilation :                                      | Provide ventilation sufficient to prevent exceeding recommended<br>exposure limit or buildup of explosive concentrations or vapor in air.<br>Use local exhaust to capture vapor, mist or fumes, if necessary.<br>Workplace environment conditions vary widely. Therefore design<br>criteria for ventilation cannot be specified in a MSDS.     |

**Respiratory Protection :** Use only NIOSH approved equipment. Normally not needed at ambient temperatures. Use supplied air respiratory protection in confined or enclosed spaces, if needed. Use filter, dust, fume, or vapor respirator type under misting conditions. Use can or cartridge, gas or vapor respirator type under conditions exceeding TWA standard.

**OSHA PEL TWA:** 5 mg/m<sup>3</sup>

ACGIH TLV TWA: 5 mg/m<sup>3</sup>

Protective Gloves : Use chemical-resistant gloves, if needed, to avoid prolonged or repeated skin contact.

| Preparation Date:<br>21-OCT-05 | Revision Date:<br>04-APR-08   |
|--------------------------------|---|
| Eye Protection :               | Use splash goggles or face shield when eye contact may occur due to splashing or spraying of material.  |
| Other Protective Equipment :   | Use chemical-resistant apron or other impervious clothing, if needed, to avoid contaminating regular clothing, which could result in prolonged or repeated skin contact.  |
| Personal Hygiene :             | There are no known hazards associated with this material when<br>used as recommended. The following general hygiene<br>considerations are recognized as common good industrial hygiene<br>practices. Minimize breathing vapor, mist, or fumes. Avoid<br>prolonged or repeated contact with skin. Remove contaminated<br>clothing; launder or dry-clean before reuse. Remove contaminated<br>shoes and thoroughly clean before reuse; discard if oil-soaked.<br>Cleanse skin thoroughly after contact, before breaks and meals, and<br>at end of work period. Product is readily removed from skin by<br>waterless hand cleaners, followed by washing thoroughly with soap<br>and water. |

# Section 9 : Physical and Chemical Properties

| Physical State/Appearance :                     | Amber liquid, petroleum odor |
|---|------------------------------|
| р/Н :   | Not rated                    |
| Decomposition Temperature :                     | Not available                |
| Vapor Pressure :                                | < .01 mmHg @ 20 °C           |
| Vapor Density (Air = 1) :                       | > 5                          |
| Boiling Range :                                 | Not available                |
| Melting Point :                                 | Not applicable               |
| Flash Point :                                   | 177 °C (350 °F)              |
| Flash Point Method :                            | COC                          |
| Solubility In Water :                           | Nil                          |
| Evaporation Point (n-Butyl<br>Acetate = 1) :    | Not available                |
| VOC Content :                                   | 0.11 lb/gal                  |
| Viscosity :                                     | Unknown                      |
| Specific Gravity (25 °C/25 °C)<br>(Water = 1) : | < 1.0                        |

#### Section 10 : Stability and Reactivity

| Chemical Stability :                        | Yes   |
|---|---|
| Conditions To Avoid :                       | Open flames   |
| Incompatibilities with Other<br>Materials : | Strong oxidizers, concentrated oxygen, sodium or calcium hypochlorite for explosion hazard                                |
| Hazardous Polymerization :                  | No  |
| Hazardous Decomposition<br>Products :       | (Under fire conditions) Smoke, fumes, carbon monoxide, and other decomposition products in case of incomplete combustion. |

#### Section 11 : Toxicological Information

| Oral (Acute) :                              | Not established  |
|---|--|
| Dermal (Acute) :                            | Not established  |
| Eye :                                       | Not established  |
| Inhalation (Acute) :                        | Not established  |
| Chronic, Subchronic, Etc. :                 | Not established  |
| Medical Conditions Aggravated by Exposure : | Not established  |
| Toxicological Paragraph :                   | This product does NOT contain any ingredients identified as carcinogenic by IARC, NTP, or OSHA |
|   |  |

### Section 12 : Ecological Information

Ecological Paragraph : Not established

#### **Section 13 : Disposal Considerations**

Waste Disposal :Consult federal, state, or local authorities for proper disposal<br/>procedures. Assure conformity with applicable disposal regulations.<br/>Dispose of absorbed material at an approved waste site or facility.

#### **Section 14 : Transportation Information**

**Transportation Information :** Not regulated by Department of Transportation (DOT)

### Section 15 : Regulatory Information

#### Applies to all ingredients:

| SARA :                  | This material is not known to contain any chemicals at a concentration of greater than 1.0 percent or carcinogenic chemicals at a concentration greater than .01 percent.  |
|-------------------------|--|
| US Federal :            | Not provided   |
| State :                 | Not provided   |
| Section 16 : Additional | Information  |
| Disclaimer :            | The above information is accurate to the best of our knowledge.<br>However, since data, safety standards, and government regulations<br>are subject to change and the conditions of handling and use, or<br>misuse use beyond our control, seller makes no warranty, either<br>expressed or implied, with respect to the completeness or continuing<br>accuracy of the information contained herein and disclaims all<br>liability for reliance thereon. User should satisfy himself that he has<br>all current data relevant to his particular use. |
